

General support letter #1

Dear Senator Shelby,

I'm a proud Alabamian, and I'm asking you to protect our families by supporting all immigration reform bills for our undocumented immigrant community. This includes the Dream and Promise Act, Farm Workers Act, Essential Workers Act, and especially the US Citizenship Act of 2021, which will end the separation of families with different statuses.

I also believe that Alabama's restaurant workers, healthcare workers, sanitation workers, construction workers, and all other members of our community should have the opportunity to become citizens. Undocumented immigrants kept Alabama's economy going during these unprecedented times, and it's time to honor their work by building a fair and just immigration system.

Thank you!
